

MINNESOTA POPULATION CENTER

IN COOPERATION WITH STATISTICS SOUTH AFRICA

announces the launch of anonymized, integrated microdata samples for the 1996 and 2001 censuses of South Africa.

Free data extracts for 8 countries, 22 samples and 122 million person records available to accredited academic and policy researchers at <https://www.ipums.org/international>

A continent-wide collaboratory to integrate the census microdata of Africa is underway in partnership with the following national statistical authorities:

Egypt	<i>Central Agency for Public Mobilisation and Statistics</i>
Ethiopia	<i>Central Statistical Agency</i>
Kenya	<i>Central Bureau of Statistics</i>
Lesotho	<i>Bureau of Statistics</i>
Madagascar	<i>Institut National de la Statistique</i>
Malawi	<i>National Statistical Office</i>
Mali	<i>Direction Nationale de la Statistique et de l'Informatique</i>
Mozambique	<i>National Statistical Institute</i>
Niger	<i>Institut National de la Statistique</i>
South Africa	<i>Statistics South Africa</i>
Sudan	<i>Central Bureau of Statistics</i>
Uganda	<i>Bureau of Statistics</i>

Statistical agencies, research centers and universities interested in participating in the IPUMS initiative are cordially invited to contact Prof. Robert McCaa, rmccaa@umn.edu
