IPM100: Improving Archiving and Dissemination Systems for Better Access and

Utilisation of Survey and Census Microdata.

IPUMS Stand – open throughout the week in the ICC. Please stop by for a chat.

IPUMS Demonstration: date, time and venue to be announced.

Workshop Goals:

1. Evaluate and discuss new microdata initiatives and methodologies
2. Address questions and concerns regarding various aspects of the IPUMS project

Newly participating statistical offices:

3. Assemble microdata and documentation for each census and country
4. Report on the census microdata available to the project and briefly discuss major harmonization issues for each country, census-by-census, question-by-question, concept-by-concept, code-by-code. For an example please see:

http://www.hist.umn.edu/~rmccaa/ipums-europe/austria/austria_workshop_report.pdf

5. Present 2 tables (forms to be provided to each statistical office—see example for Austria)
 - a. Table 1: listing of microdata and documentation shipped to MPC.
 - b. Table 2 description of the censuses to be harmonized and the corresponding microdata entrusted to the project.
